

Collision Repair Technology

16 Month Day Program (Monday-Friday, 8:00am to 2:30pm) Offered at Main Campus

About

The Collision Repair Technician program is designed to provide the student with a thorough understanding of the materials, methods, and refinishing techniques used in the repair and restoration of a damaged automobile body.

Through class study, audiovisual presentations, and actual "hands-on" performance tasks the student will learn the procedures necessary for the proper repair and refinishing of metal, fiberglass, and plastic components used in both unibody and conventional automobile construction.
