

## Computer Operating Systems, Networking, & Cybersecurity

12 Month Day Program (Monday-Friday, 8:00am to 2:30pm)  
Offered at Main Campus

### About

The Computer Operating Systems & Network Technology program teaches students how to use technical skills to build, set up, run, fix, and take care of computers and related tools. Students will also learn about power supplies, how computers store numbers and memory, the parts that help computers work, microprocessors, extra equipment, programming, and networking.
