

Medical Assistant

The Medical Assistant program prepares students to become members of the health care team in doctors' offices, medical clinics, hospitals, and specialty practices. The curriculum—includes administrative and clinical competencies. *Clinical experiences include a variety of general and specialty practices. Graduates of the Medical Assistant program will be a multi-skilled health professional who is qualified to provide support health care services under the supervision of a physician. This versatile member of the health care team assists the physician in executing administrative and clinical procedures in the office/clinic setting. Administrative responsibilities may include but are not limited to scheduling appointments, managing the telephone, and maintaining medical records. Clinical responsibilities may include but are not limited to obtaining a medical history, preparing patients for the physician's examination, taking vital signs, administering medications, performing routine lab procedures, and assisting the physician when the patient is examined.

*Externship will be 8 hours days. The hours worked will vary depending on the facility.
